

VIKING CASES

We manufacture shipping cases for every budget and purpose.

Standard ATA Cases

Viking cases are designed to meet or exceed the Air Transportation Association Specifications. Our cases are the most durable reusable cases available.

Viking Tough Hardware

Features all steel recessed twist locks latch assemblies to prevent accidental opening and are constructed to last years of heavy use. Recessed, spring loaded handles are installed on Viking cases at points convenient for easy handling. Heavy gauge steel ball corners provide extra "armor" at the most vulnerable points of the case.
